Chickpeas

India is the largest exporter for Chickpeas worldwide. Chick Peas are available in two Varieties of Desi and Kabuli. These are classified on the basis of shape, thickness, size. Chickpeas are known for its nutty taste and rich protein content.

At Silkwinds we source the best pulses across the world, we get quality chickpeas from Canada, Australia & Ukraine. Additionally we source host of pulses across the world.

Mango Pulp

Mango concentrates made from selected variety of mangoes, ripened under natural conditions. They are produced from best quality, certified mangoes that originate in the southern parts of India. Fully matured mangoes are harvested, quickly transported to fruit processing plant and inspected. The product is free from added sugar, dyestuff, synthetic flavour, stabilisers, pesticides & herbicidal residues and radioactive contamination.

Mango Pulp

Mango, the king of the fruits is known for its full-bodied pulp, the rich flavour of its sweetness and the deep colour of the fruit. The Mango pulp is filtered with the help of highly scientific equipment. High-quality control standards are followed at each stage of processing to maintain standardised process and hygienic conditions.

Fruits & Vegetables

MANGOES

Mangoes are juicy fruit is one of the most popular, nutritionally rich fruits with unique flavor, fragrance, taste, and health promoting qualities. Mango is one of the delicious seasonal fruits grown in the tropics. We are renowned exporters and suppliers of the fresh Mango from India. We export all kinds of Mangoes to different countries.

POTATOES

Potato has become a staple food in many parts of the world and an integral part of much of the world's food supply. We export yellow potatoes in different sizes. Potato is known for its high carbohydrate content. The potatoes are obtained from the well-known farmers where they cultivate using natural fertilizers.

ONIONS

The humble onion is found in every kitchen and it's the essential food in our everyday life. We export red onions in a variety of sizes, which are the rich source of various vital nutrition and medicinal properties. The onions are organically cultivated without the use of any harmful pesticides and chemicals. We collect Onion from known agriculturists and farmers that assure our customers of our authenticity. We pack these Indian Red Onions in suitable packaging material to prevent from degradations.

GRAPES

Grapes are known as the queen of fruits. Classified under the family of berries, grapes come in different varieties. Grapes contain flavonoids that are very powerful antioxidants, which can reduce the damage caused by free radicals and slow down ageing. Grapes, due to their high nutrient content, play an important role in ensuring a healthy and active life. We are a leading Indian fresh grapes exporters and suppliers and export high-quality grapes.

Animal Feed

ALFALFA

Alfalfa, called the Queen of the Forages, is a perennial flowering plant in the pea family Fabaceae cultivated as an important forage crop in many countries around the world. It is used for grazing, hay, and silage, as well as a green manure and cover crop. One of the most important characteristics of alfalfa is its high nutritional quality as animal feed. Alfalfa contains between 15 to 22% crude protein as well as an excellent source of vitamins and minerals.

CORN/MAIZE

The corn or maize grain is a major feed grain and a standard component of livestock diets where it is used as a source of energy. We are one of the leading exporters of maize/corn for animal feed, human consumption, catering to every part of the world. These grains are rich in vitamins A, C and E, carbohydrates, and essential minerals, and contain 9% protein. They are also rich in dietary fiber and calories which are a good source of energy.

WHEAT (ANIMAL GRADE)

Wheat grain is a major staple food that provides about 20% of food energy and protein worldwide. Wheat is also an excellent energy source for farm animals. We export and supply superior quality Wheat feed grains. The Indian wheat grains are rich in taste and

BARLEY

Barley is one of the main cereal crops and it's extremely beneficial for animals. We are Exporters of good quality Barley grain that is obtained from natural and best farms in the country in the national and international markets. It has the genetic diversity to perform well in many of the provinces growing conditions. Barley has higher protein content, and are a valuable feeding ingredient.
